

MEETING 4: Firmware & Integration

Date: Thursday, July 13, 2026 **Time:** 12:00 PM - 2:00 PM

Venue: Level 5, COCIS **Attendees:** All team members present

Agenda

- LCD/LED integration
- ThingSpeak connectivity
- App data fetching
- System testing plan

Discussion

- Josh completed LCD and LED integration
- Zahra configured ThingSpeak to receive data from ESP32
- Rahim tested app fetching data from ThingSpeak - it worked perfectly
- Gid prepared test cases for system testing
- Pre designed the bracket and shared the file with Rahim for printing
- Rahim printed the bracket after receiving the design from Pre

Decisions Made

- Proceed with full system integration
- Implement buffering for offline mode
- Begin system testing next week

Action Items

Task	Assigned To	Status
LCD/LED integration	Josh	Done
ThingSpeak upload logic	Zahra	Done
App data fetching	Rahim	Done
Prepare test cases	Gid	Done
Bracket design	Pre	Done
Print bracket	Rahim	Done
